Florida Chapter #1: The chapter will participate in the Florida Turfgrass Association Show in Tampa September 16-19. Stop by the STMA booth for updates on the chapter and on the national STMA.

A field construction and renovation seminar is planned for October 20, at Palm Beach Gardens. For information on these events, the Florida Chapter, or pending activities, contact John Mascaro: (954) 938-7477.

Northern California Chapter: For general information about the Nor-Cal STMA, contact Sal Genito, UC Davis: (530) 752-1691.

Southern California Chapter: The chapter is planning its annual community service project for early August at Mount San Antonio College in Walnut, LA County. For information on the service project, the Southern California Chapter, or pending activities, contact the chapter hotline: (888) 578-STMA (toll free in Southern California).

Chapters on the grow

Great Plains Chapter: Plans are moving forward on a fall workshop and for a workshop with Floyd Perry of Grounds Maintenance Services. For information on these events, the Great Plains Sports Turf Managers Association, or upcoming activities, contact Mark Schimming, City of Wichita: (316) 337-9123.

Arizona Chapter: For information on the Sports Turf Managers Association of Arizona or upcoming events, contact Bill Murphy, City of Scottsdale Parks and Recreation Department: (602) 994-7954, or Kris Kircher, City of Chandler Parks & Recreation Department: (602) 786-2728.

Indiana Chapter: Plans are moving forward on the formation of a new chapter in Indiana. For information on this developing chapter, contact Terry Updike, B & B Fertilizer: (219) 356-8424, or Pat Hickner: (800) 672-4273.

Nevada Chapter: For information on the forming Nevada Chapter or upcoming events, contact Ibsen Dow: (702) 649-1551, or Alan Paulson, Clark County School District: (702) 799-8724.

Get Serious With STMA
Application for Membership

The Sports Turf Managers Association (STMA) is an organization of professionals representing all segments of the sports turf industry. Our members work to combine the science of growing grass and the art of maintaining sports turf to produce playing fields that are both safe and aesthetically pleasing.

STMA provides members with a variety of benefits, including: education through regional institutes and conferences; support for sports turf research; facilities tours; a national awards program; access to the STMA National Conference and Exhibition; complimentary subscriptions to Sports Turf Manager and sportsTURF Magazine; and much more.

If you're serious about the sports turf industry, then it's time to become a member of STMA. Join today!

by Dr. Dave Minner

Where do I go to get specific guidelines for layout and dimensions of sports fields? Specifically, I’m interested in the size of the base cutouts for an all-grass, women’s fast-pitch softball field.

—Bob Stonebraker

Grass fields that host multiple sports will often cutout only the base and pitching areas, so that these small skinned areas can be easily sodded when converting the field for sports other than baseball or softball. The circle cutout for home plate must have a 13-foot radius, while the pitcher's mound should have a nine-foot radius cutout.

A 20-foot by 20-foot square should be used for all other base areas (See Figure 1). Replace the corner that faces the mound with a 45-degree diagonal. This diagonal should bisect the two sides closest to the mound.

It's important to remember that cutout bases are best suited for temporary fields. Permanent skinned infields are more durable, and are better suited for both softball and baseball.

Dimensions and field layout

Different associations may have slightly different suggestions for field layout. Here are a few organizations that have excellent printed guidelines for field dimensions:

- United States Baseball Federation
  2160 Greenwood Ave.
  Trenton, NJ 08609
  (609) 586-2381

- American Amateur Baseball Congress
  118 Redfield Plaza
  P.O. Box 467
  Marshall, MI 49068
  (616) 781-2002

- National Federation of State High School Associations
  P.O. Box 20626
  Kansas City, MO 64195
  (816) 464-5400

- National Collegiate Athletic Association
  6201 College Blvd.
  Overland Park, KS 66211-2422
  (913) 339-1906

- United States Soccer Federation
  5403 West 138th St.
  Hawthorne, CA 90250
  (310) 643-6455

The organization, league, or federation that sponsors your particular sport will have a set of guidelines for a suggested field layout. The key word here is suggested. The specific dimensions for boundary lines, pitching distances, hash marks, and other field components can easily be obtained through the listed organizations.

Even with the exact guidelines, there are many undefined dimensions. Some quantities are not specifically determined, and are left to the discretion of the coaches and field managers. These include: the width of the base path and the distance between the grass and the foul line; the shape of the mound area; the coaching boxes; the infield skin in the foul area around first and third bases; the cutout shape at first and third; and the fungo, on deck, and batter approach areas.

Sports turf managers should have an official set of rules that serve as guidelines for field dimensions. They should further understand that the loosely defined suggested dimensions offer a valuable opportunity to make changes that will allow more efficient management. Where time and resources are limited, an efficiently managed field often translates to better and safer playing conditions.

David D. Minner, Ph.D., is an associate professor with the Department of Horticulture at Iowa State University. He serves on STMA’s Certification Committee. Contact Dave at: ISU, Hort. Dept., Ames, IA 50011; or call: (515) 294-2751, fax: (515) 294-0730, or e-mail: dminner@iastate.edu.
