RAINCOVER SYSTEM
by COVERMASTER

When you rely on the Covermaster® Raincover System to keep your field ready for play, you’ll make life easier for you and your grounds crew at the same time.

The Covermaster® Raincover System features equipment that makes it simple to install, remove and store your tarp. It will also save you time and labor. And with our wide choice of cover materials, Covermaster can custom design your tarp in the size and configuration that will meet your special needs. The Covermaster® Raincover System. You could say we have you covered. For more information call us today.

TARPMATE™

This lightweight and easy to handle roller with special end caps provides safety against injury for both grounds crew and the players.

TARPMACHINE™

Takes the heavy work out of rolling the cover over the field. Attaches to the P.T.O. on your tractor.

AerWay Turf Aerators

AerWay turf aerators give grounds managers more options for treating sports field compaction. A typical playing field can be treated in less than 2 hours, ideal for working within a narrow “window of opportunity” on heavily used fields.

AerWay relieves soil compaction 7” and deeper. Patented AerWay Shatterline twist in the soil, cracking it sideways, and gently lifting it, to relieve even the most severe compaction. Play or practice can resume following a mowing pass.

Starting under $3,000, AerWay units are extremely rugged, need very little maintenance, and minimize labor requirements.

“AerWay and Play Right Away”

For more information, a free video or a demonstration, call 1-800-457-8310 (Pacific Coast 1-800-663-8196)

Kifco has introduced two models to their popular line of Water-Reels. The new B110 and B180 extend the product line to ensure there is a Water-Reel to fit your needs. Machines are compact, easy to use, operate unattended, and shut off automatically. They are suitable for all types of sports turf and are easily transported from one area to another. Water-Reels combine outstanding features that come from more than 25 years of traveling sprinkler engineering.
