Grasshopper AERA-vator™

Designed for 700 and 900 Series power units, Grasshopper's 40- and 60-inch AERA-vator™ attachments aerate turf and relieve surface compaction without irrigation, leaving no cores to clean up. Turf is available immediately after treatment. Oscillating, forged-steel tines penetrate and fracture hard, dry soils, encouraging root development and providing a resilient surface for playing fields.

TYPAR® TURF BLANKETS

Typar® Turf Blankets retain warmth, which enhances germination and growth and helps protect turf from winterkill. The blankets also protect from wind and desiccation, retain moisture and allow sunlight, air and water through to the soil. Made of spunbonded polypropylene, Typar Turf Blankets are tough, durable and tear resistant.

Get Serious With STMA

Application for Membership

The Sports Turf Managers Association (STMA) is an organization of professionals representing all segments of the sports turf industry. Our members work to combine the science of growing grass and the art of maintaining sports turf to produce playing fields that are both safe and aesthetically pleasing.

STMA provides members with a variety of benefits, including: education through regional institutes and conferences; support for sports turf research; facilities tours; a national awards program; access to the STMA National Conference and Exhibition; complimentary subscriptions to Sports Turf Manager and sportsTURF Magazine; and much more.

If you're serious about the sports turf industry, then it's time to become a member of STMA. Join today!
