

# GET THE CUT OF A REEL MOWER FOR A FRACTION OF THE COST.

The cut of a reel mower doesn't have to be expensive. Bush Hog's 3-gang reel mowers are a fraction of the cost of a self-contained unit. Yet these PTO-driven mowers deliver all the quality and consistency of reel mowers and can be operated behind compact tractors with minimal horsepower. Rugged Bush Hog® design means years and years of service.

*Get the cut of a reel mower for a fraction of the cost. See your Bush Hog 3-gang reel mowers for athletic fields and also the 5 and 7 gang models at your Bush Hog distributor, on our web page or send in this coupon for free literature.*
