

**We built it heavy-duty.  
But not by the rules.**

**The ProGator® Utility Vehicle from John Deere.**

With the John Deere ProGator, the idea of a heavy-duty utility vehicle just got redefined and redesigned. No other vehicle combines the strength, reliability, and flexibility of the ProGator UV.

You can see the difference just by walking through the operator station. It's wide open, making it easy to get on and off.

Driving is a different feel as well. A five-speed, synchro-mesh transmission allows for seamless shifting — no more overlapping gears. And the

hydrostatic steering provides for precision control and tight turning.

If you have a ton to haul, then this is your vehicle. The ProGator UV weighs in with a hefty 2,650-pound load capacity. Strength also comes in the form of a one-piece axle supporting the rear wheels.

Heavy-duty for any duty. The ProGator UV has the strength and versatility you need, and the performance no other vehicle can top. Call for a demonstration today.
