## Nichols digs up Field of the Year Award

STMA Annual Report pg 32

**Healthy & Well-Conditioned**  
2009 Annual Report and 2010 Strategic Audit Results

**Technology for Turf**  
The use of technology in turf management has become increasingly important. From GPS-guided mowers to precision irrigation systems, technology is helping turf managers optimize their operations and improve the health of their turf.

**Industry Growth**  
The sports turf industry continues to grow, driven by the expansion of professional and college sports facilities. This growth is creating new opportunities for turf managers and equipment suppliers.

**STMA's Super Bowl**  
The Super Bowl is a major event for the sports turf industry, showcasing the latest in turf technology and management practices. It provides a platform for industry professionals to share their knowledge and experiences.

**Scheduling for Success**  
Effective scheduling is essential for the success of any sports turf manager. It involves balancing the needs of the facility with the availability of resources and the weather conditions.

**2009 Turf Field Audit Form**  
The 2009 Turf Field Audit Form is a comprehensive tool for assessing the health and condition of a turf field. It includes sections for soil analysis, turf quality, and overall field performance.
