Congratulations To All

With this issue, sportsTURF reaches the halfway point in reporting the fields of the year, and at this time, we want to congratulate not only the winners of the awards but also the “losers”: those who submitted their fields for consideration but did not quite reach the top spot. In many instances, the voting was razor close and the winning edge was a field’s budget — or the lack thereof. Given a choice between two or more fields of equal quality, the judges tended to pick the lowly budgeted.

For these awards, like so many others, the real honor lies in just being considered. In the case of the Beam Clay Baseball Diamonds of the Year, for instance, the judges were asked (1) to “recognize professionalism in maintaining outstanding baseball facilities” and (2) to award no points if no candidates were “sufficiently qualified.” In all of the categories, the bulk of the fields that entered received points from at least one judge. This means most the fields that entered were deemed professionally maintained, outstanding baseball facilities — which is no faint praise, coming from three Major League groundskeepers.

Any sports turf manager with a substantially renovated field should consider entering it for next year’s awards (call STMA at 712/366-2669 for entry forms). It doesn’t matter if the field is short on staff and budget and long on fickle, inclement weather. The judges take such adversities into consideration. The main thing they seem to look at is the ingenuity and tender, loving care of the management.

Ask the Experts

Internet site of the month is SportGrass Turf System at the following address: http://www.sportgrass.com The site provides the e-mail addresses of and a chance to correspond with the following turfgrass specialists: Dr. John Rogers, Dr. Dave Minner, Dr. Norman W. Hummel, Dr. Milton Engelke and Chuck Dixon.

Hebrand Moved

People trying to reach Mike Hebrand in follow up to his April article, “Field Striping and Painting,” are welcome to contact him at his new address: Athletic Field Design, 12586 S.E. Bluff Dr., Clackamas, OR 97015; phone (503) 698-6383, fax (503) 698-7289.

July

10 Field Day at Penn State, a tour of the school’s turf plots and athletic fields. Penn State Univ., University Park, PA. Contact: Keystone Athletic Field Managers Organization, (610) 375-8469, ext. 212.
