

MOTORLESS LIQUID SPREADER

The **Greens Wheelie** is a liquid chemical spreader with a unique ground-driven pumping system. The unit gives the sports turf manager the benefit of a boom-type spreader without the worry of engine maintenance.

The twin-wheel pumps on the WS-490 spray a fan of solution six feet wide at the rate of 1,000 square feet per gallon. The delivery of the spray is relatively unchanged by the speed at which the sprayer is pushed.

The WS-490 features large pneumatic rubber tires and a thick-wall ten gallon tank with a wide mouth lid for easy filling and cleaning.
