Jaydee Drive Liner

The Jaydee Drive Liner is a self-propelled riding line marker. The 35-gallon paint tank carries enough marking material for a complete game field, or several practice fields. The 2-gallon flush tank cleans the discharge lines for work breaks, travel, or overnight. The center or side-mark spray shields are always operator-visible. A nearly zero turning radius reduces or eliminates back and turn maneuvers.

Water Reels

Kifco has introduced two models to their popular line of Water-Reels. The new B110 and B180 extend the product line to ensure there is a Water-Reel to fit your needs. Machines are compact, easy to use, operate unattended, and shut off automatically. They are suitable for all types of sports turf and are easily transported from one area to another. Water-Reels combine outstanding features that come from more than 25 years of traveling sprinkler engineering.

Grasshopper AERA-vator™

Designed for 700 and 900 Series power units, Grasshopper's 40- and 60-inch AERA-vator™ attachments aerate turf and relieve surface compaction without irrigation, leaving no cores to clean up. Turf is available immediately after treatment. Oscillating, forged-steel tines penetrate and fracture hard, dry soils, encouraging root development and providing a resilient surface for playing fields.

TYPAR® TURF BLANKETS

Typar® Turf Blankets retain warmth, which enhances germination and growth and helps protect turf from winterkill. The blankets also protect from wind and desiccation, retain moisture and allow sunlight, air and water through to the soil. Made of spunbonded polypropylene, Typar Turf Blankets are tough, durable and tear resistant.
