### No Nonsense!

The Earth and Turf topdresser is the simple way to spread dry, flowable material. A ground driven agitator and roller do the work. The choice of two spreading widths gives you versatility. On-the-go engagement & disengagement and adjustable flow rates make application easy. This is the affordable, "no nonsense" way to spread top dressings!

## AerWay Turf Aerators

AerWay turf aerators give grounds managers more options for treating sports field compaction. A typical playing field can be treated in less than 2 hours, ideal for working within a

narrow "window of opportunity" on heavily used fields.

AerWay relieves soil compaction 7" and deeper. Patented AerWay Shattertines twist in the soil, cracking it sideways, and gently lifting it, to relieve even the most severe compaction. Play or practice can resume following a mowing pass.

Starting under \$3,000, AerWay units are extremely rugged, need very little maintenance, and minimize labor requirements.

## Water Reels

Kifco has introduced two models to their popular line of Water-Reels. The new B110 and B180 extend the product line to ensure there is a Water-Reel to fit your needs. Machines are compact, easy to use, operate unattended, and shut off automatically. They are suitable for all types of sports turf and are easily transported from one area to another. Water-Reels combine outstanding features that come from more than 25 years of traveling sprinkler engineering.

## Jaydee Drive Liner

The Jaydee Drive Liner is a self-propelled riding line marker. The 35-gallon paint tank carries enough marking material for a complete game field, or several practice fields. The 2-gallon flush tank cleans the discharge lines for work breaks, travel, or overnight. The center or side-mark spray shields are always operator-visible. A nearly zero turning radius reduces or eliminates back and turn maneuvers.
