

"I PRODUCE A BETTER PLAYING SURFACE WITH THE LESCO 500.

**IF I DIDN'T,
I'D USE SOMETHING ELSE."**

Oscar Miles, the superintendent at Butler National Golf Club, loves the LESCO 500 Fairway Mower. He should. He and Butler Equipment Manager Mark Winge had the idea of developing a lightweight, five-gang, greensmower-type fairway mower long before the LESCO machine was introduced.

Miles was one of the first superintendents to maintain fairways to putting green standards with triplex mowers. And although he never wavered in his conviction that greensmower-type machines were the way to go, he searched for ways to make the job less labor intensive and time consuming.

Miles found exactly what he was looking for when LESCO engineered the 500 Fairway Mower. Fairway cutting that used to require four mowers is now done with just two of the LESCO machines. And the results are better, too.

"We're interested in close-cut fairways with outstanding

quality and dramatic contours," Miles points out. "The LESCO 500 Fairway Mower gives us that."

The LESCO 500 delivers the precision cutting, dramatic striping and day-in and day-out dependability Oscar Miles requires. It can do the same on your course.
