

KUBOTA'S VIP TURF EQUIPMENT

M4030SU with 5-gang Verti-Reel for high production mowing.

Kubota's precision-cutting turf equipment cuts through your turf chores in less time, with less fuel, while delivering more power and versatility.

The heavy-duty, 2WD M4030SU turf/utility tractor is powered by a Kubota 51 horsepower liquid-cooled diesel engine. With standard features such as "creep speed" transmission (16 forward/16 reverse), hydrostatic power steering, wet disc brakes and an independent hydraulic system, this powerful special turf tractor can lift and move heavier loads and quickly attach/detach a variety of implements.

For the ultimate in maneuverability and versatility, the Kubota diesel front mower F-Series offers you hydrostatic transmission for quick, smooth operation. The 24HP F2400 and 20HP F2100 come with four-wheel drive and a front differential lock. The fuel-efficient, 2WD 20HP F2100E offers excellent visibility and power. And, the FZ2100 and FZ2400 with 20HP and 24HP offer the exclusive combination of Zero Diameter Turn (ZDT) and Auto Assist Differential (AAD) 4-wheel drive. Kubota has a wide

selection of Kubota performance-matched implements such as rotary, flail and rear discharge mulching mowers.

Cut through your turf chores with a Kubota.
