

continued from page 6

his cellular phone within seconds of the accident.

- The player was not moved, and the game was delayed until the ambulance took him away.

- Three unbiased eye witnesses completed forms describing the event.

- Photos of the scene were taken immediately after the accident, before the game resumed.

- The staff member placed a completed report in the supervisor's mailbox before clocking out.

In addition to this thoroughly documented response to the accident, the department had standard maintenance procedures to strengthen its defense:

- A step by step daily checklist is assigned to every crew member.

- Supervisors perform educational staff evaluations annually.

- A nine-hour course in first aid and CPR is mandatory for all staff members.

- A disposable camera is placed in every city vehicle to record potential liability concerns and overnight vandalism.

- Staff improvement seminars continue to educate employees.

- Risk management walk-arounds expose concerns.

Outcome

When the matter finally went to court, the judge threw the case out for lack of substantial evidence. He ruled that the accident did not result from maintenance negligence, but from the assumed risk of slow-pitch softball.

Unfortunately, this scenario is becoming increasingly prevalent in our industry. Even when all pre-liability mechanisms are in place and staff members act professionally, the potential for injury remains. Use common sense, and be prepared for anything.

Floyd Perry is author of three books: The Pictorial Guides to Quality Groundskeeping: I - Covering the Bases; II - There Ain't No Rules; and III - Maintain It Easy, Keep It Safe. He also produces two videos: The ABC's of Grounds Maintenance: Vol. 1, Softball; and Vol. 2, Baseball. For more information, call: (800) 227-9381, or visit his web site: <http://gms.simplenet.com>.

CYGNET TURF salutes all the overworked, under appreciated professional groundskeepers including park, city, and municipal workers that have made such a difference in the appearance and safety of all our ballfields throughout the country; from the little leagues to the major leagues, from the local soccer fields to the state of the art Columbus Crew stadium, from the Pop Warner football fields to the N.F.L. stadiums. **Great job guys!!!**

We would particularly like to thank some of the groundskeepers and staffs that we have had the privilege to work with including

Roger Bossard Chicago White Sox
Billy Findley St.Louis Cardinals
Brandon Koehnke Cleveland Indians
Steve Peeler Seattle Mariners
Trevor Vance Kansas City Royals
Dennis Brolin New England Patriots
Andre Bruce Kansas City Chiefs
Mark Clay Alltel Stadium SMG
Jim Duggan Soldier Field SMG
Don Follet Washington Redskins
Michael "Spin" Martin Indianapolis Colts
Scott Parker St. Louis Rams
Vince Patterozzi Baltimore Ravens
Chris Powell Cleveland Browns
Keith Van Der Leest Alltel Stadium SMG
Rick Izzo Akron Aeros
David Frey Field Specialties
Joe Zelinko Athletic Field Services
Rob Montgomery Sylvania Parks & Recreation
Brian Gimble Ohio State University
Ted Thorn University Of Iowa
Ken Schoeni Bowling Green State University
Tracey Jones University of Michigan
Jim Haun Western Michigan University
Matt Sinclair Rose-Hulman Institute of Technology
Eugene Mayer Columbus Crew Stadium

And to all the many groundscrew workers, we thank you for giving us the opportunity to work with and beside you, and we look forward to working with you in the future.

Enkamat Flatback®

Surface Protection That Makes Sense

Enkamat Flatback® is designed to protect natural turf athletic fields during rock concerts or other social events. The unique three-dimensional nylon matrix and flat surface allows turf to stay beautiful and green even after constant foot traffic. Easy to unroll. Reusable time and again, season after season. Available in widths up to 12.5'. For more information contact:

Vigaroot
It is in the Bag with Vigaroot

Heat stress, insect and disease pressure all take their toll on your turf. Vigaroot is a new turfgrass management tool designed to help reduce stress and stimulate root growth through enhanced water and nutrient uptake. Vigaroot's dry formulation combines humic acid, seaweed and yucca extract, beneficial bacteria, and fully chelated iron, zinc and manganese. Vigaroot is packaged in a premeasured foil bag to provide easy use and ensure longer shelf life and stability.

Jaydee Drive Liner

The Jaydee Drive Liner is a self-propelled riding line marker. The 35-gallon paint tank carries enough marking material for a complete game field, or several practice fields. The 2-gallon flush tank cleans the discharge lines for work breaks, travel, or overnight. The center or side-mark spray shields are always operator-visible. A nearly zero turning radius reduces or eliminates back and turn maneuvers.

Water Reels

Kifco has introduced two models to their popular line of Water-Reels. The new B110 and B180 extend the product line to ensure there is a Water-Reel to fit your needs. Machines are compact, easy to use, operate unattended, and shut off automatically. They are suitable for all types of sports turf and are easily transported from one area to another. Water-Reels combine outstanding features that come from more than 25 years of traveling sprinkler engineering.
