

THE JEFFERSON MEMORIAL: PINK MARBLE, INDIANA LIMESTONE & LOFTS SEED

J E F F E R S O N M E M O R I A L , W A S H I N G T O N , D . C .

Only the finest materials are used at the Jefferson Memorial. That's why you'll find Lofts Seed on the grounds of this and other famous places such as the Statue of Liberty, the White House and Central Park. For seventy-five years Lofts Seed has been developing turfgrass varieties with improved germination, color, drought tolerance and insect and disease resistance.

Our Rebel turf-type tall fescues produce exceptionally durable turfgrass that performs well in both sun and shade conditions. That makes them perfect in high traffic areas such as parks, commercial sites, home lawns, even historic monuments.

So use Lofts Seed. And your next project might just become a landmark.
