# STMA 17TH ANNUAL CONFERENCE & EXHIBITION

JANUARY 18-22, 2006 • ORLANDO, FLORIDA

"I always bring back new ideas from the STMA Conference that have an immediate benefit to my sports facility."

Joe Kennedy, CSFM, Surprise, AZ

- 38 Hours of education with workshops and roundtable discussions. Plus an optional MLB/NFL hands-on outdoor seminar
- See new technology at the Trade Show.
- Conference Package includes meals and local transportation.

Bring your team to Orlando and network with other industry professionals.

# ANNIVERSARY

# Sports Turf MANAGERS ASSOCIATION

Experts on the Field, Partners in the Game.

"The educational sessions were phenomenal, all geared toward sports turf. The expanded trade show floor offered great new opportunities."

John Mascaro, Coral Springs, FL

**VOLUME 21 / NUMBER 11** 

### cover story

### 17th Annual STMA Conference & Exhibition, January 18-22, 2006, Orlando, FLA

### **O8** Exhibitors' Listing

No show in the country brings together all the vendors that matter to turf managers better than this one.

### 15 Speakers' Listing

The most relevant, up-to-date information for managing sportsturf, from the NFL or MLB to municipal park systems.

## features

### IRRIGATION/DRAINAGE

### 20 Taking on Winter: The Basics of Irrigation System Blowouts

Anybody in the turf industry north of 45 degrees latitude should have a firm grasp of proper irrigation system winterization. Otherwise, both acute and chronic forces can cause considerable system damage at spring recharge and nightmarish summer maintenance.

### 22 After the Flood

As the recovery of the Gulf Coast begins, it is timely to discuss restoration of flood damaged athletic fields and sports surfaces. The severity of a flood's impact on the playing field system will vary based on duration and degree.

### FIELD OF THE YEAR

### 34 Slugger Field, Nielsen win 2nd Field of Year title

It is not easy to grow bluegrass in the transition zone but Tom Nielsen, turf manager at Louisville's Slugger Field, seems to have it down.

## from the sidelines

# Golf for SAFE

The Foundation for Safer Athletic Field Environments (SAFE) was created by STMA to provide research, educational programs and scholarships dedicated to advancing the field of sports turf management. For the 6th straight year Jacobsen is sponsoring the SAFE/Jacobsen Golf Tournament to be held in conjunction with the Annual STMA Conference & Exhibition, January 18-22 in Orlando.

I've participated in and enjoyed this event the past 4 years. The atmosphere is casual and the courses have been spectacular. I say it is "\*\*\*\*Highly recommended."

The Tournament will take place on Wednesday, January 18, at ChampionsGate Golf Club, about 15 minutes from the host hotel. A Greg Norman design, the International Course has the look and the feel of a British links-style course. Last year this event raised nearly \$16,000 for the SAFE Foundation to help support scholarship, education, and research funds. Registration fee includes greens fees, cart, and lunch. For more information visit www.sportsturfmanager.org, contact the STMA Show Office at STMA@newportevents.com, or call Andrea Dillinger at 866-847-8623.

Speaking of the STMA Conference, I asked some turf folks who have attended that event regularly over the years what was the best reason they knew for showing up:

"Attending the STMA Show is confirming your beliefs in your professional arena and a platform for unbelievable networking. There are many benefits to you as an individual as well as your employer." Chris from the Southwest

"I attend for all the educational opportunities it presents. Where else can you go and hear national experts speak on [information] that can be taken directly back to your operation and implemented? The networking is also an excellent opportunity to learn. You really find out that you are not the only one dealing with an issue when you attend one of the informal get-togethers in the bar!" Rob from the Midwest

"Networking is the #1 reason I attend. Re-living experiences or learning new technologies while sitting with old friends, or soon to be new friends, is the most rewarding aspect of conference. Each segment of our attendees [professional, academic, commercial] brings their experience and that helps me become a better professional." Mike from the Midwest

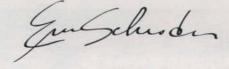

> "To catch up with old friends, meet new friends, and get up-to-speed on new R&D in sports turf science." Pamela from the Midwest

> Mandatory-PennSt-mention-dept.: Joseph M. Duich, Ph.D., professor emeritus of turfgrass science at Penn State, has been selected to receive the 2006 Old Tom Morris Award from the Golf Course Superintendents Association of America. GCSAA's most prestigious honor, the award is for individuals who "through a continuing lifetime commitment to the game of golf has helped to mold the welfare of the game in a manner and style exemplified by Old Tom Morris."

Duich has devoted a lifetime to breeding new turfgrasses and teaching hundreds of future golf course superintendents and turfgrass researchers. Congrats, Doc!

# president's message

# Remembering Dr. Henry Indyk

This past September STMA mourned the loss of Dr. Henry Indyk, Henry was instrumental in shaping many of today's STMA programs and services. You may recall the article by STMA Historian Dr. Kent Kurtz in the STMA's October Electronic Newsletter titled "Remembering Hank" in which he wrote, "It has been due to Henry's personal integrity and willingness to serve STMA for the benefits of others that made this man a legend."

Dr. Indyk was a professor at Rutgers University's Cook College in New Brunswick, NJ, for more than 30 years, retiring in 1990. During his tenure at Rutgers University, Henry was fully devoted to providing leadership in Extension activities relating to all facets of the turfgrass industry.

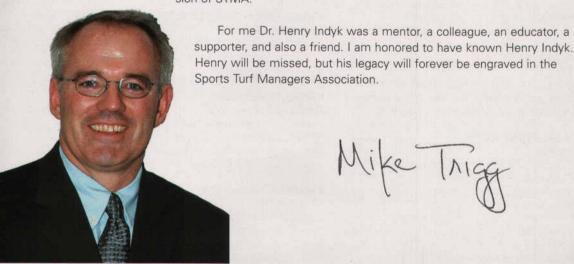

Dr. Indyk's impact on the Sports Turf Managers Association is immeasurable. In the early 1990s, Dr. Indyk was a true leader with vision and passion for this Association. He served as an STMA board member in many Board capacities. He received the prestigious STMA Henry Gill Award in 1994 and in 2000, STMA awarded him with an honorary lifetime membership. He was the inspiration for the STMA Certification program. Acting as the first chairman of the STMA Certification Committee, he led a team of sports field managers and educators to develop the Certified Sports Field Managers (CSFM) program.

Let me also share some personal experiences with Doc Indyk. He was a speaker at numerous state, national, and international conferences so he definitely was not a stranger to many STMA Conferences. I recall attending Dr. Indyk's presentations on soils and water and soil management and fertility at several of the STMA Conferences. I remember Dr. Indyk beginning his workshop saying, "I have two hours to present a semester of information on soils...so let's get started." And he did just that, the two-hour workshop flew by and you came away with a wealth of information.

Many who attended his presentations would comment, "Spoke with knowledge, enthusiasm, and love for his subjects. Very knowledgeable, with a good mix of technical, practical and humorous

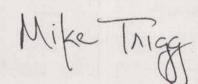

Also, as Conference Chairman for two years, I always received in late February or early March a letter from Dr. Indyk first congratulating me on a terrific conference program, followed by two pages of suggestions on educational topics and presenters for the upcoming conference.

Earlier this year, I received a personal handwritten note from Henry congratulating me on my Presidency and saying, "May you have much success in your leadership efforts to advance the mission of STMA."

MIKE TRIGG, CSFM

mtrigg@waukeganparks.org

The AERA-vator® will aerate high traffic areas, loosen soil before laying sod and relieve compaction from sporting events. The SEEDA-vator® can primary seed or over-seed without any other type of preparation. The MULTI TINE AERAvator® makes overseeding sports fields easy with no disruption of play. The VERTI-cutter operates at a consistent depth up to 1 1/2"

deep - even while making gentle turns. The FLAIL-mower is a great choice for economical mowing on all

types of sports turf.

Patented swing hitch allows units to turn without tearing the turf.

Synthetic Turf Groomer with GreensSlicer® Spring Tine Rake.

Fast, Efficient Grooming of all filled synthetic sports fields!

### **FEATURES and BENEFITS**

- Synthetic Sports Turf Groomer works with all fill material currently used, in both wet and dry conditions.
- Patented brush design lifts turf fibers leaving them in a plush, upright position. Brushes move fill to low spots or depressions left after play.
- Synthetic Super Duty Blue Brushes retain their original shape, resist wear, and will not rot.
- GreensSlicer Spring Tine Rake consists of 3 rows of 28 tines spaced 7/8 inch apart for thorough coverage.
- Each row of tines may be adjusted to the desired level of aggressiveness.
- The GreensSlicer combs through the fill material, relieving compaction and assuring a soft, level playing surface.
