

The channels that verticutting creates also allow moisture and oxygen to penetrate the soil. The spacing and depth of the channels can easily be adjusted with spacers and depth setters that come on most verticutter models. We generally use a 1 and 1/4-inch spacing with a 1/2 inch to 5/8 inch depth. Some turf managers have a problem with a black layer or a crusted-over soil and verticutting definitely helps break this up and allow normal conditions to return to the soil. These channels can also serve as fantastic seedbeds. A shallow verticutting followed by seeding and a heavy roll can bring great results.

Some people may be concerned that verticutting takes a long time to do and with small crews, there won't be enough time to do it. This couldn't be further from the truth; a 2-acre area can be verticut in an hour. Followed by an hour of vacuuming, the process comes in at less than half a day's work.

Quite honestly, I don't know how we would combat some of our most common problems without a verticutter. It truly is an unsung hero on our crew (we just run it!).

Andrew Hoiberg is assistant turf manager at INVESCO Field at Mile High in Denver. He can be reached at Andrew.Hoiberg@broncos.nfl.net. ■

product spotlight

John Deere Aercore 800

With a heavy-duty frame, tine rams and adjustable operating speeds, the **Aercore 800** increases productivity while providing flexibility. The unit features four aerating speeds; a four-cycle overhead valve, **Kohler Command** 18-hp engine with electric solenoid start; and a dual-element air filter.

John Deere

For information, fill in 067 on reader service form or see <http://www.oners.hotims.com/9136-067>

VC-60 Verti-cutter

The VC-60 unit is designed for continuous heavy-duty operation on sports fields with all types of turf. Its patented "swing hitch" allows you to turn while verticutting without ripping established turf. Cutting depth is adjusted in the field without tools.

First Products

For information, fill in 054 on reader service form or see <http://www.oners.hotims.com/9136-054>

AccuAire

Broyhill's AccuAire core aerator features the **FlexWing** design that allows it to follow the contour of the ground. Core spoons rotate on new roller ball bearings to last for years. Three-point and trailed styles available; equipped to use slicer blades, too.

Broyhill

THE GAME MUST GO ON.

An Airfield is the ultimate sports turf drainage system whether you are playing on natural or artificial turf.

Artificial Turf Benefits:

- Drains remarkably faster
- Reduces installation time
- Reduces G-Max
- Eliminates rubber migration
- Eliminates standing water
- Strong enough for vehicles
- Below entire playing surface
- Air void for heating and cooling
- Allows flushing and sanitizing
- Maintains level playing surface

Natural Turf Benefits:

- Drains remarkably faster
- Reduces installation time
- Reduces irrigation requirements
- Extends playing season
- Eliminates standing water
- Reduces maintenance costs
- Below entire playing surface
- Superior perched water table
- Greater root mass
- Gas circulation through soil

Groundbreaker

BLEC's Groundbreaker relieves compaction. Special curved wedge shaped blades penetrate the most compacted of soils between 3 and 10 in. The soil is fractured laterally by the side forces created by the blades. This leaves you with no surface disturbance and continuous drainage.

BLEC USA, Inc.

For information, fill in 057 on reader service form or see <http://www.oners.hotims.com/9136-057>

VEEMO MK.2

The SISIS VEEMO MK2 is a dethatcher that provides maximum thatch removal with minimum surface disturbance. Double-ended blades are tungsten tipped for extra durability and the pitch of the blades can be varied by means of flexible spacers. Three independently floating heads closely follow ground contours without scalping.

SISIS/864-843-5972

For information, fill in 058 on reader service form or see <http://www.oners.hotims.com/9136-058>

ProCore

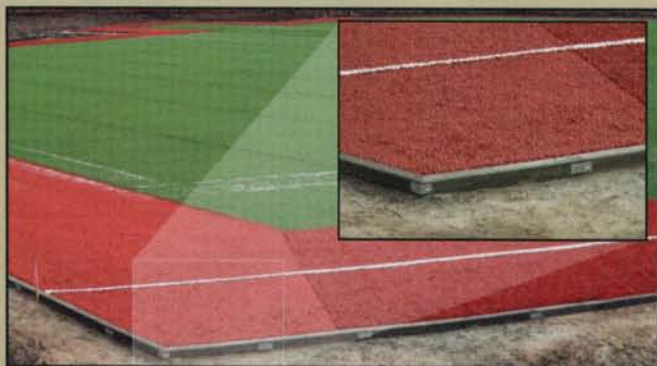

The Toro ProCore 648 is a walking aerator with rear wheels within the 48-in. aeration swath of the machine so the tires are not running over the freshly aerated turf and smashing the cores into the holes, preventing topdressing from filling the holes.

The Toro Company

Important deadlines approaching

October 1, Student Scholarship applications are due. The SAFE Foundation, the charitable arm of STMA, has allocated \$12,500 for scholarship awards for the 2007 school year. Each scholarship award is a minimum \$1,000 and each winner will receive a complimentary conference registration and a travel stipend.

Students who are eligible for the SAFE Scholarships:

- * Will be enrolled in a 2-year, 4-year, or graduate program in a major/field related to sports turf management
- * Must have at least one semester of study left
- * Must be planning a career in the sports turf management industry, either in the field or in research
- * Must be an STMA member
- * Previous undergraduate recipients may not reapply for SAFE Scholarships while still an undergraduate

To apply, fill out the short application form in the "Professionalism" tab at www.sportsturfmanager.org. Be sure to also include:

- * A Biographical essay
- * A completed Employer Reference Form
- * A completed Faculty Advisor Form
- * A copy of your transcript

The application must be received by October 1.

October 16, Field of the Year submittals & Founders Award nominations are due.

STMA awards its highest honors, the Founders Awards, and recognizes its Field of the Year winners during the Awards Banquet at the annual conference. Be a part of these prestigious awards by submitting your field and nominating a worthy candidate. Both are due October 16.

The Founders Awards are named after the four founders of STMA: Harry Gill, George Toma, Dick Ericson, and Dr. William H. Daniel. The awards recognize the unique contributions each Founder made to the sports turf industry. To nominate a candidate, go to the Founders Awards Application at www.sportsturfmanager.org. Click on the Professionalism tab, then on STMA Founders Awards. Or, fill out the application in the June issue (page 40) of *SportsTurf*.

A Field of the Year award will bring you recognition from your peers, your employers and the industry. This is an excellent way to showcase your hard work and professionalism. STMA awards the Field of Year for five field types: softball, baseball, football, soccer and Complex of the Year in the categories of Parks/Schools, Fields used by Professional Athletes, and Colleges and Universities. For more information, or to fill out the application, go to www.sportsturfmanager.org. Click on the "Professionalism" tab, then on Field of the Year Awards.

Trotta is 2006 TOCA Environmental Communicator of the Year

Today's turfgrass manager must always consider the environment when making management decisions, said STMA member and Turfgrass IPM Specialist Kevin J. Trotta, recipient of the 2006 Turf & Ornamental Communicator's Association (TOCA) Environmental Communicator of the Year award. If the turf industry wants to be perceived as stewards of the environment, "We must be stewards of the environment," said Trotta, who received the award sponsored by Advan LLC at the TOCA annual meeting in Napa, CA.

The award is given annually to an active green industry member for outstanding efforts in communicating the benefits of environmental stewardship to a particular audience within the turf and ornamental industry.

Trotta, a six-year member of STMA, is an educator, speaker and writer about Integrated Pest Management (IPM) and is an expert in the practical application of those sustainable and environmentally friendly practices in turfgrass management. Trotta began his career in the Green Industry as a lawn and landscape contractor. He also served as an assistant golf course superintendent before becoming head groundskeeper for the North Rockland Central School District in Garnerville, NY in

Left to right: Frank Standfuss, Advan LLC, Kevin Trotta, TOCA Environmental Communicator of the Year, and Kim Heck, CEO of STMA.

1988. Trotta holds a BS degree in landscape horticulture from the State University of New York and a MA degree in environmental studies from City College of New York.

Martin Petrovic, professor of Turfgrass Science, Cornell University, said Trotta "Practices what he preaches on the North Rockland Schools site. He is extremely knowledgeable and up to date on all the IPM practices that can be used and uses them." Petrovic also said, "Having a good message is part of being a good communicator, but being able to deliver the goods is just as important. Kevin's talks are funny, entertaining, and full of useful information that one can and should use. He takes complex concepts and makes them easy to understand, while giving them practical easy-to-use information. . . In short, he is a superb communicator with environmental protection and action in the forefront."

Kim Heck, CEO of the Sports Turf Managers Association, nominated Trotta for the award, because he is an ambassador for environmental stewardship in the green industry. "His passion for protecting the environment and providing safe and beautiful sports fields for athletes and fans has gained him recognition as a leader in integrated pest management. It is his personal mission to share his knowledge, experience and research with others through presentations, articles and community outreach."

TOCA is a national association of editors, writers, publishers, public relations/advertising practitioners and others involved in Green Industry communications. ■

CEO Kim Heck spoke on behalf of Project Evergreen at a news conference last July in Lawrence, KS. Project Evergreen partnered with Lawrence Habitat for Humanity to provide the lawn and landscaping for two Habitat houses. Heck (left) and staff members Leah Craig and Nora Dunnaway-McIntire (far right) attended the event with Habitat Executive Director Jean Lilley (next to Heck). STMA is a supporting association of Project Evergreen. In addition to Habitat for Humanity, Project Evergreen has been orchestrating field renovations for youth. STMA has provided assistance in Philadelphia and Raleigh for these renovations.

great turf, safe play

With a super light footprint, the TD-460 can spread everything from sand and compost, to rock and wood chips. Marvel at the light to heavy, large 72" spread.

Sports Turf Managers

Association of Arizona: The AZ STMA will be holding a 1-day seminar Sept. 7, 2006 at the Pera Club in Tempe. More information will be available soon on our website at www.azstma.com. For information on the Chapter or upcoming events, contact Darin Budak, CSFM at dbudak@goodyearaz.gov or call 623/882-7616 or David Oropeza, at e-mail: doropeza@cityofnogalez.net or 520/285-5781.

Chesapeake Chapter STMA

(formerly called Mid-Atlantic Athletic Field Managers Organization - MAFMO Chapter STMA): For information on the Chesapeake Chapter, contact Glenn Sweet at glenn_sweet@landon.net or call 301/495-5522.

Colorado Sports Turf

Managers Association: The CSTMA Summer Field Day will be August 11, 2006 at Security Field in Colorado Springs. For more information about CSTMA visit our website at www.cstma.org or call the Chapter Hotline at 303/346-8954 or President Dick Buelter at 303/233-2922, or email dbuelter@jeffco.k12.co.us.

Florida #1 Chapter:

The FTGA Conference and Show will be September 12-15, 2006 in Bonita Springs, for more information, visit www.ftga.org or call 800/882-6721. For information on the Florida #1 Chapter or upcoming events, visit the Florida #1 Chapter page on STMA's website or contact John Mascaro at 954/341-3115 or STMA@turf-tec.com.

Gateway Chapter Sports Turf

Managers Association: August 9 is the Multi-field Maintenance Field Day at Lutheran High School South. Lunch is provided by Munie Outdoor Services. We will also have a meeting in September 2006 (date and time

to be) at the City of Maryland Heights "Sports-plex Soccer Park." For information on upcoming events or on the Gateway Chapter, contact Mark Vessell, St. Louis Youth Soccer Association at 636/940-7776 or e-mail vessel@slysa.org or Frank Schaffer, Lutheran High School at 636/940-7776.

Georgia Sports Turf Managers

Association: For information on the Chapter or upcoming events, contact Skip Kirby at 770/928-1580 or by e-mail at skip@sportsturfmanagement.com.

The Greater L.A. Basin Chapter of the Sports Turf Managers Association:

For more information on the Chapter or upcoming events call Carol Gundlach, CSFM at 909/594-5611 ext. 5174 or e-mail cgundlach@mtsac.edu.

Illinois Chapter (formerly Midwest Chapter) STMA: For information on the Illinois Chapter or upcoming events call chapter secretary Libby Baker at 847/263-7603 or e-mail Bake60ft6in@aol.com. Iowa Sports Turf Managers Association: For information on the Chapter or upcoming activities visit www.iowaturfgrass.org or contact Jeff Wendel, CGCS of The Turf Office at 515/232-8222 or fax 515/232-8228 or e-mail Jeff@iowaturfgrass.org.

Keystone Athletic Field Managers Organization

(KAFMO/STMA): The 6th Annual KAFMO Cup Open will be October 16, 2006. There will be a 1:00pm shotgun start. This year it will be at a new location - Iron Valley Golf Club in Lebanon, PA. Visit KAFMO.org for details. For information on the Chapter or upcoming events, contact Dan Douglas, Reading Phillies Baseball Club at 610/375-8469, ext. 212 or by e-mail to: kafmo@aol.com.

Kentucky Sports Turf

Managers Association: The 2006 KTC Conference and Trade Show will be October 22-26. It will be at the Holiday Inn University Plaza Hotel - Sloan Convention Center in Bowling Green. For information on the Chapter or upcoming events, go to www.kystma.org or contact Tom Nielsen at 502/212-2287 or by email at tnielsen@batsbaseball.com or Aaron Boggs at Aboggs@batsbaseball.com.

Michigan Sports Turf Managers Association

(MiSTMA): The Michigan Turfgrass Foundation, and Michigan State University are hosting the annual summer field day August 23. The afternoon tour will be a sports turf specific bus tour that will focus on baseball fields and mowing patterns. For information on the Michigan Chapter, visit their website at www.mistma.org or contact Chad Follis at 269/377-3340 or 269/381-0596 or by email at chadfollis@farmngarden.com.

Minnesota Chapter STMA:

For information on the Minnesota Chapter, or upcoming events, visit the Chapter website at www.mstma.org or contact chapter President Tom Adamini at 952/953-2420 or by e-mail at tadamini@ci.apple-valley.mn.us.

MO-KAN Sports Turf

Managers Association: For information on the MO-KAN Chapter or upcoming events, contact Jody Gill at 913/239-4121 or by e-mail at jgill@bluevalleyk12.org. **New England STMA (NESTMA):** The second annual Maine Turf Day was held June 14, at the Wainwright recreation Athletic Complex in S. Portland, ME. Over 120 participants attended this collaborative effort between the New England Sports Turf Managers Association and the New England

Chapter Sponsors

Parks Association. Training sessions included talks on Baseball Game Field Prep, Laser Leveling, Repairing High Traffic Areas, Rotodarian Demonstrations, Pesticide Management, and Sprayer/Spreader Calibration. After lunch, round table discussions were held allowing sports field managers to share ideas, concerns, and general conversation with each other. For information on the New England chapter or upcoming events, contact David Pinsonneault at 781/861-2757 or e-mail dpinson@ci.lexington.ma.us or Nick Caggiano at 603/589-3370 or e-mail caggianon@ci.nashua.nh.us.

Nebraska Sports Turf

Managers Association: For information on the Nebraska Chapter or upcoming events, contact Jennifer Roeber at 402/441-4425 or by e-mail at jenr@saltdogs.com.

Sports Turf Managers of

New York: The STMoNY Chapter is still growing! We are working to get an August meeting at Saratoga Race Course. For information on the New York Chapter or upcoming events, contact Mike Albino at 315/468-6225 or (c) 315/427-1214 or mikealbino@earthlink.net or Kevin Meredith at 607/287-6609 or kimeredith@earthlink.net.

Sports Field Managers Association of New Jersey:

For information on the New Jersey Chapter or upcoming

events call SFMANJ at 908/730-7770, e-mail HQ@sfmanj.org or visit the Chapter website at www.sfmanj.org.

Ohio Sports Turf Managers

Association (OSTMA): For information on the Ohio Chapter, contact OSTMA headquarters at 614/354-1196 or Ostma@aol.com. You can also visit our new website at www.ostma.org. The new OSTMA address is PO Box 3426 Dublin, OH 43016.

Jaydee Drive Liner

The Jaydee Drive-Liner is a self-propelled riding line-marker featuring a 13.5 h.p. Briggs & Stratton engine, along with a 3.3 gallon remote fuel cell, a 35 gallon paint tank that carries enough marking material for a complete game field, or several practice fields. The 2 gallon flush tank cleans the discharge lines for work-breaks, travel or overnight. Center/side-marking sprayshields are always operator visible. A nearly zero degree turning radius reduces or eliminates back and turning maneuvers.

Supreme-Green™ Turf Growth Cover

Supreme-Green is a multi-purpose turf growth cover made of a specially designed material to provide early green-up, accelerated germination and winter protection. The Supreme-Green cover encourages root development and rapid growth while extending your spring and fall seasons.

Supreme-Green turf growth cover is specifically engineered to promote earlier openings by 2-3 weeks.

- Reduces seed loss
- Promotes earlier root establishment
- Accelerates Germination
- Reduces frost and ice-damage
- Porous to allow water and air circulation
- Mildew and rot resistant
- Quick turf repairs

Specifications:

- Made of tough woven non-coated polyethylene material
- UV treated for long life
- Green tint for best heat build-up
- One piece construction
- Comes complete with anchor pegs and storage bag

AERATION, QUICK AND EASY

The TM-62 is a high-production, commercial-grade aerator that can tackle a field in 35 minutes or less, making aeration quick and easy. Its 72 deep-coring tines create 3/4-inch holes up to 4 inches deep, alleviating thatch and compaction problems. Ground-driven tine wheels are mounted in pairs to allow turning without tearing the turf. Available in tow-type and 3-point hitch, the TM-62 is an economical investment to improving your field conditions.
