REACH BEYOND TRADITIONAL PERENNIAL RYEGRASS

RPR (Regenerating Perennial Ryegrass) is unequalled in wear and traffic performance in university and private trials. RPR outperforms other perennial ryegrasses and provides the excellent turf quality you expect from Barenbrug USA. Its unique regenerating feature will create a new standard for professional turf managers. RPR is also highly endophyte enhanced, which has shown to improve turf quality and increased resistance against disease and pest.

The RPR™ Advantage

- Superior wear tolerance
- High turf quality rating
- Enhanced with endophyte for resilience
- Exceptionally drought tolerant
- Pseudo-stolons allow for regeneration
