**So Unique It
Has a Name of Its Own**

"We overseeded our bermudagrass baseball field with RPR and were very happy with it. It stayed green throughout the season and it played very well. It out-performed the traditional rye we have used in the past. In the spring the RPR survived unusually high temperatures and persisted until late spring."

"We here at Maryland SoccerPlex are HGT's biggest fans! Germination speed and seedling development made it possible for us to fully rebuild, seed, and re-open our stadium field in 35 days using HGT last fall. This year the wear tolerance and recovery have been equally impressive through 150 events in 200 days. Under stress from professional soccer, youth soccer, lacrosse and rugby, the HGT never really showed wear."
